

SR&ED Start-up

SR&ED (Scientific Research & Experimental Development) is the government program that rewards companies that perform R&D in Canada. The program makes Canada a more economically competitive and technologically advanced nation and it has been in existence since the 80's. The Canadian incentive program is one of the most generous R&D programs in the world. **This is not a grant - if you qualify, you are entitled to this money under the Income Tax Act.**

Many start-ups in technology and science sectors qualify for this program.

We can set you up for success with SR&ED Program.

- Are you incorporated in Canada with a Business Number (BN)?
- Do you operate in a sector of science, technology or medicine?
- Have you or will you incur labour, subcontractor, material or overhead expenditures?
- Have you developed any prototypes?
- Are you facing technological or scientific uncertainty with products, devices or technologies?
- Are you attempting to achieve an advancement in knowledge in a field of technology, science, or medicine?

There are only 3 criteria for eligibility plus evidence:

- Scientific uncertainty or technological obstacle
- Scientific or technological advancement
- Systematic investigation
 - *plus* Technical content

You could qualify for a refund for your SR&ED projects.
